ABOUT ME

Entering software development with a passion for problem-solving, I swiftly rose to mid-level status within a year, showcasing my impactful contributions. Eager to maximize growth, I embraced a 10-month mentorship, driven by my pursuit of continuous skill enhancement. My adept problem-solving has earned recognition, fueling my commitment to process optimization.

PROFESSIONAL EXPERIENCE

ELEVATED THIRD   DENVER, COLORADO
DRUPAL DEVELOPER   *FEBRUARY 2022 – MAY 2023*
A digital agency that blends strategic thinking with technical doing to solve enterprise B2B problems.
- Collaborated with design teams to enhance UI and address accessibility concerns.
- Implemented design documentation for website pages.
- Proactively solved problems to streamline efficiency and enhance user interactions, contributing to a dynamic team environment.
- Swiftly advanced from Junior to Drupal Developer within 12 months, enhancing user experiences through frontend fixes and design implementation.

PROJECT EXPERIENCE

mvp_forums
Developed a mock forum application utilizing ASP.NET Core, React, and PostgreSQL, facilitating user account creation, board posting, and interactive discussions via replies.
Link: mvp-forums.azurewebsites.net

Fantasy Trading
Developed a React CRUD app using external APIs (Finnhub, Financial Modeling Prep) and Node.js with PostgreSQL, allowing users to simulate stock trading, track purchases, and manage portfolios.
Link: stonks-9too.onrender.com

Undertale Hangman
An Undertale-inspired hangman adventure, powered by React and Bootstrap. Seamlessly mobile-responsive with an interactive onscreen keyboard, captures the charm of a certain someone's puzzles.
